

**§ 90-171.83. (For repeal, see editor's note) General provisions and jurisdiction.**

(a) A license to practice registered nursing that is issued by a home state to a resident in that state shall be recognized by each party state as authorizing a multistate licensure privilege to practice as a registered nurse in each party state. A license to practice practical or vocational nursing that is issued by a home state to a resident in that state shall be recognized by each party state as authorizing a multistate licensure privilege to practice as a licensed practical or vocational nurse in each party state. In order to obtain or retain a license, an applicant must meet the home state's qualifications for licensure and license renewal as well as all other applicable state laws.

(b) Party states may, in accordance with each state's due process laws, revoke, suspend, or limit the multistate licensure privilege of any licensee to practice in their state and may take any other actions under their applicable state laws that are necessary to protect the health and safety of their citizens. If a party state takes an action authorized in this subsection, it shall promptly notify the administrator of the coordinated licensure information system. The administrator shall promptly notify the home state of any actions taken by remote states.

(c) Every licensee practicing in a party state shall comply with the state practice laws of the state in which the patient is located at the time care is rendered. The practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of a party state. The practice of nursing in a party state shall subject a nurse to the jurisdiction of the nurse licensing board and the laws and the courts in that party state.

(d) The Compact does not affect additional requirements imposed by states for advanced-practice registered nursing. A multistate licensure privilege to practice registered nursing granted by a party state shall be recognized by other party states as a license to practice registered nursing if a license to practice registered nursing is required by state law as a precondition for qualifying for advanced-practice registered nurse authorization.

(e) Persons not residing in a party state may continue to apply for nurse licensure in party states as provided for under the laws of each party state. The license granted to such persons shall not be recognized as granting the privilege to practice nursing in any other party state unless explicitly agreed to by that party state. (1999-245, s. 1; 2017-140, s. 1.)
